

American Maritime A Cost Efficient Way to Transport Fuel

Regular Gas
(September 2014)

American Maritime Facts

The domestic maritime industry is made up of more than **40,000 American vessels built in American shipyards**, crewed by American mariners and owned by American companies. These vessels **operate in our waters 24/7**, and this commerce sustains nearly 500,000 American jobs, **\$29 billion in labor compensation**, and almost **\$100 billion in annual economic output**.
